Highly regarded BRANDS with proven performance over many years for the relief and treatment of Sports injuries and muscular/soft tissue pain that result from a wide range of both sporting activities and ARTHRITIS.

This is demonstrated by consumer expenditure on the brands in excess of \$5million to date.

Key factors driving sales of these Brands are the increasing demand in the growing degenerative arthritis and sports injury pain market, particularly the baby boomer/over 60's.

It's not just the boomers – arthritic conditions afflict increasing numbers of former high-impact sports patients who wish to remain active for years to come. These brands have built up a strong treatment credibility with arthritis endorsement, plus high-performance global sports.

As natural-based products, these consumer friendly BRANDS do not come with the notorious and deleterious side-effects of pharmaceutical soft tissue pain
